

# Genus Spectra 2X36W

The slim design of the Genus® Spectra allows this insect light trap to fit tightly against the wall for areas where space is at a premium.

Using a high UVA output, this unit delivers increased fly-catch performance and features Strategically positioned glue boards for a more effective catch.

Two 36W bulbs delivering fast fly catch

Finished with an attractive screen providing complete catch containment

Can be mounted on the wall horizontally, vertically or in the corner

Free-standing swivel option

Lift-and-stay hinged cover for both-hands-free servicing
